REPORT- BLOOD DONATION CAMP

Organizer- NSS Department

Event- Blood Donation Camp

Day & Date- 15th September, 2025

Timing- 10.30 AM - 04:00 PM

Location – Civil Drawing Hall

Students- B.Tech, Diploma

Title: Blood Donation Camp on the Occasion of Engineers Day

Objectives:

- To collect safe and adequate blood for patients in need
- To create awareness about the importance of blood donation
- To promote voluntary and regular blood donation
- To encourage community participation and social responsibility
- To dispel myths and fears about blood donation
- To maintain sufficient blood reserves for emergencies
- To provide basic health check-ups for donors
- To support patients requiring frequent blood transfusions
- To build a habit of regular blood donation among individuals

Report:

On 15th September 2025, on the occasion of Engineers' Day, a Blood Donation Camp was organized at Padmabhooshan Vasantraodada Patil Institute of Technology, Budhgaon by NSS Department. This initiative was carried out both as a socially useful activity and to mark the significance of Engineers' Day.

The **Chief Guest** for the program was **Mr. Rajesh Pawar, Director, Micro India, and Pune**. Along with him, Executive Director Prof. R. A. Kanai, Campus Director Dr. B. S. Patil, Director Dr. S. S. Mohite, and Registrar Mr. S. S. Umrani, NSS team, Heads of Departments, teaching and non-teaching staff, and students were present. The camp received immense support from the **Hindratna Prakashbapu Patil Blood Centre, Sangli** and their dedicated team with supervised the entire process to ensure safety and efficiency. Before donating, each participant underwent a basic health checkup, including tests for blood pressure, hemoglobin levels, and overall fitness.

Throughout the day, students, faculty members, and non-teaching staff enthusiastically took part in the camp. A total of **151** units of blood were collected. Donors were provided with refreshments, gift and certificates as a token of appreciation for their contribution.

The event concluded successfully with positive feedback from the medical team as well as the participants. The camp not only helped strengthen the college's sense of social responsibility but also inspired many first-time donors to commit to regular blood donation in the future.

Outcomes of the Blood Donation Camp

The blood donation camp resulted in several positive outcomes, both in terms of health impact and community engagement. A total of 151 units of blood were collected, which will contribute significantly to meeting emergency and routine blood requirements in partner hospitals. The camp succeeded in attracting a large number of first-time donors, many of whom expressed willingness to donate regularly in the future, thereby strengthening the voluntary donor base.

In addition to blood collection, the camp created substantial awareness about the importance of blood donation. Participants gained clarity on eligibility criteria, health benefits of donating blood, and the critical need for safe, voluntary donations. The preliminary health check-up provided to all donors helped many individuals become more aware of their own health status.

The event also fostered teamwork and responsibility among volunteers and organizers. It enhanced collaboration between the host institution and the partnering blood bank, paving the way for future health-related initiatives. Overall, the camp successfully promoted a culture of social responsibility, community service, and lifesaving contribution.
