Academic Projects

- **Degree Project:**

Project Name : “E-Marketing of non-ferrous metals”

Sponsored By: Shree Engineers, Budhgaon.

Description : The objective is to provide a system which controls the selling of items through online. The users will consume less amount of time through shopping online rather than visiting and shop directly. The user can buy items sitting anywhere, any time around the world.

Tools & Technology: JavaScript, PHP, HTML, MySQL.

Modules: Admin, Customer, Registration, Shopping, Payment.

- **Diploma Project :**

Project Name : Hospital Management

Sponsored by : Mahatma Gandhi's Cancer hospital, Miraj

Description : A Hospital Management system is a comprehensive, integrated information system designed to manage all the aspects of a hospital operation, such as medical, administrative, financial and the corresponding service processing. Traditional approaches encompass paper-based information processing as well as resident work position presentation. Hospital Management system can be defined as massive, integrated systems that support the comprehensive information requirements of hospitals, including patient, clinical, ancillary and financial management.

Tools & Technology : ASP.Net 4.0, C#, SQL Server 2012.

Modules : Registration ,Patient check out, Tests and Examinations.
